2021 MEDIA KIT

UPLOADVR is a news organization focused on the intersection between people and VR/AR.

Our distributed team of dedicated journalists cover important software and hardware releases as well as the researchers and developers driving augmented reality and virtual reality into wider use.

We strive for fairness, accuracy, and depth in our coverage but we are also advocates for the safe, ethical, and inclusive use of this technology.

Oculus Quest 2? Everything We Know About Facebook's Next VR Headset

DAVID HEANEY - JULY 29, 2020

ARTICLE TOP

Oculus Quest 2 seems to be on the way, with a Bloomberg report, developer site references, leaked photos, leaked marketing images and a noticed controller driver file.

Reliable sources tell us this headset is not, contrary to what you've seen elsewhere, a new Oculus Quest. It's a new Oculus Quest 2, and it's coming in the next few months.

Hitman VR Might Mean More For PSVR Than You Realize

VR platform so far. Given that there don't appear to be radical changes to the controllers, it should also be relatively straightforward for developers to get their software working on both systems. Any performance improvements are likely to be used to increase refresh rate & resolution.

We'll keep this post updated as we learn more about the new Oculus Quest and let us know in the comments if you have any more specific questions we can work to answer.
