

The UploadVR Showcase - Winter 2023
Sponsorship Options

Introduction

The UploadVR Showcase is the VR industry's biggest showcase. Twice a year (June and December), we work with a wide range of developers and publishers to bring VR enthusiasts game announcements, first looks, and updates that spotlight some of the best VR has to offer.

Our core Summer 2023 and Winter 2022 showcases received 72k and 30k views on YouTube to date, respectively. Everything in the Showcase is embargoed for worldwide release until it airs publicly during the event, so while the Showcase starts on our <u>Youtube</u> channel, our <u>website</u>, and our social channels like <u>Twitter</u>, <u>Facebook</u> and <u>Steam</u>, it also extends outward to the channels and websites of our re-stream partners and beyond with the shared embargo working to help amplify everyone's work in this fast-growing space.

The showcase aims to give the most interesting emerging information about VR games and technology to our audience of VR enthusiasts. By sponsoring the showcase, you help uplift the VR industry and contribute to UploadVR's goal of bringing the newest and most interesting news and announcements to as many people as possible.
